

## Ordering **LOCS III Transparency Standard:**

The Lens Opacities Classification System (LOCS) has gone through three iterations. The most recent version is the third, so-called LOCS III. These grading materials are for use at the slit lamp in a doctor's office. No photographs of patients' lenses are needed to do LOCS III classification. Each set of LOCS III grading materials includes: one (1) 8.5" x 11" standardized transparency containing the LOCS III standards and one (1) set of detailed written instructions for use of the LOCS III system at the slit lamp. The cost of each set is US\$400.00. Included at no additional cost is a reprint of the original publication of the LOCS III system.

To order sets of LOCS III classification materials, please follow the instructions below:
